New Work Item Proposal

Draft Decision CEN/TC 33 D 1411c/2020

CEN/TC 33 – Doors, windows, shutters, building hardware and curtain walling

Secretariat: AFNOR

Proposal documented in N 3969

Date of circulation: 2020-08-25

Closing date for voting: 2020-10-15

Proposal

1. Deliverable

EN

2. This item corresponds to

A new project

3. Explain the purpose and give a justification for this proposal

Creation of a standard for burglar resistance of products as covered by the scope of WG 5.

4. Stakeholder categories immediately affected by the proposal

Industry and commerce
Standards application
SMEs
Government
Consumers

5. How will these Stakeholders benefit from or be impacted by the proposed deliverable?

For the first time, a European Standard for burglar resistance of products as covered by the scope of WG 5 will be available.

6. Document developed in drafting body

Existing drafting body
CEN/TC 33/WG 5 - Industrial, commercial and garage doors and gates

7. Title

Industrial, commercial and garage doors and gates – Burglar resistance – Requirements, classification and test methods

8. Scope

This European Standard specifies the requirements and classification for burglar resistant characteristics for doors intended for installation in areas in the reach of persons, and for which

<p>the main intended uses are giving safe access for goods and vehicles accompanied or driven by persons in industrial, commercial or residential premises as defined in EN 13241.</p> <p>This European Standard also covers commercial doors such as rolling shutters and rolling grilles used in retail premises which are mainly provided for the access of persons rather than vehicles or goods.</p> <p>These doors can include pass doors incorporated in the door leaf which are also covered by this European Standard.</p> <p>These doors can be manually or power operated.</p>
<p>9. Proposed Project Leader (including contact details) - optional</p>
<p>10. Accessibility aspects</p> <p>Accessibility aspect are not relevant for this NWI.</p> <p>Classification and test standard</p>
<p>11. Environmental aspects</p> <p>None of the above</p> <p>Classification and test standard</p>
<p>12. How do you plan to address these environmental aspects?</p> <p>Other -</p>
<p>13. Link with European Research and/or Innovation project</p> <p>No</p>
<p>14. Track</p> <p>Enquiry + Formal Vote (ENQ+FV)</p>
<p>15. Please provide the target date for the below key stage</p> <p>Activation of the preliminary WI (10.90): 2023-10-15</p>
<p>16. Related standardization request(s) (formerly mandate)</p> <p>No</p>
<p>17. Related directive(s)/regulation(s)</p> <p>No</p>
<p>18. Relation to other legislation or established public policy.</p> <p>No</p>

19. Is the proposed project covered by Intellectual Property Rights (IPR)? No
20. The decision was taken by Simple majority
