CEN/TC 33/WG 4 Minutes from web meeting 2021-03-10

Bengt Rydstedt,
bengt.rydstedt@sis.se

Minutes - Meeting of CEN/TC 33/WG 4 Building Hardware

Time: Wednesday 10 March 2021, 9:00-15:00 CET

Place: Web meeting via Zoom

PRESENT

Convenor	Inge Lidén
Secretary	Bengt Rydstedt
Secretariat	Åse Lyngstad
Austria	Gernot Guth, Herbert Mate, Markus Kornhofer, Rene Baumgartner
Belgium	Johan Vanmuysen
Denmark	Karsten Andersen, Morten Jul Laegaard
Finland	Tuuli Kunnas, Jouni Tirkkonen
France	Frédéric Ducloyer, Martial Schneider, Pierre Vilain, Arnaud Robert
Germany	Jürgen Lienau, Jürgen Meinhardt, Markus Dörr, Mesut Korkut, Oliver Eckerle, Stephan Schmidt, Johannes Trampert, Torsten Vogel, Wolfgang Landwehr
Italy	Marco Paolizzi, Renzo Ravegnini, Stefano Gelmini, Mario Maggi
Netherlands	Arjen Koole
Poland	Slawomir Stopikowski, Wojciech Woxniak
Spain	Iratí Adin Iceta
Sweden	Anders Sandgren, Håkan Hedlund
Portugal	Luís Pires
UK	Joanne Brain, Paul Duggan, Steve Ross, Neil Rule, Michael Skelding, Mark West
ARGE	Hans Weissenböck

1. Introduction and opening of the meeting

Inge Lidén welcomed everybody to the meeting and introduced the meeting rules.

2. Roll call of delegates

Åse Lyngstad led a roll call of the delegates and the attendance was documented in the minutes.

3. Adoption of the Agenda

Doc: [CEN/TC 33/WG 4 Revised agenda meeting 2021-03-10/N1150](#)

The agenda was adopted.

4. Minutes of the previous meeting

Doc: [CEN/TC 33/WG 4/N1115](#)

The minutes from 9 September 2020 were accepted.

5. CEN/TC 33/WG 4 Secretariat's report

5.1 Current work programme

Doc: [CEN/TC 33/WG 4 Work Programme February 2021/N1144](#)

Bengt Rydstedt presented the current work programme.

6. TG Reports with proposals to WG 4

6.1 Status TG member list

Bengt Rydstedt reminded the TG Convenors of the importance of keeping track on the fact that all TG members must be registered by their National Standards Body as experts in CEN/TC 33/WG 4. TG Convenors are also asked to send in member lists of their TG: s to the secretariat of CEN/TC 33/WG 4.

6.2 TG Convenor meeting

Inge Lidén presented the content of the WG 4 TG Convenor meeting held 3 February. The next WG 4 TG Convenor meeting will be held 12 May.

Inge Lidén also informed about the fact that CEN is changing to a new platform for documents called CEN Documents. There was a discussion about the possibility for TG: s to upload documents, there is a new area called Member Upload Area for those documents (replacing the old Drop box).

6.3 TG reports and proposals

TG 1: Complimentary Product Category Rules Convenor: Frédéric Ducloyer

Doc: [Report from CEN/TC 33/WG 4/TG 1/N1135](#)

Frédéric reported on the progress on prEN 17610. A meeting was held 23 February to work on the comments received during CEN Enquiry. A new draft will soon be sent to the WG 4 secretariat, which will be one year ahead of the deadline.

ACTION 1/2021: CEN/TC 33/WG 4 agrees to proceed to Formal vote for prEN 17610.

TG 2: Corrosion resistance Convenor: Martial Schneider

Doc: [Report from CEN/TC 33/WG 4 /TG 2/N1136](#)

No activity in the TG at the moment.

TG 3: Locks and latches Convenor: Håkan Hedlund

Doc: [Report from CEN/TC 33/WG 4/TG 3/N1137](#)

The TG feels the need to stress the situation with EN 15685 to be able to move forward. The timeframe for EN 15685 and EN 12209 have also been missed so there is a need for NWI for both projects. The proposal for the way forward for EN 15685 is to publish without Annex ZA.

ACTION 2/2021: CEN/TC 33/WG 4 agrees to

- request status regarding prEN 15685 from the TC 33 secretariat.
- proceed to develop prEN 12209 without annex ZA
- request NWIs for prEN 15685 and prEN 12209 due to time schedule.

TG 4: Cylinders for locks Convenor: Håkan Hedlund

Doc: [Report from CEN/TC 33/WG 4/TG 4/N1138](#)

The result of the Systematic Review for EN 1303 was CONFIRM, however TG 4 feels the need to revise and is looking for support for a NWIP. They also need advice on in what way a manual attack can be included in EN 1303.

ACTION 3/2021: CEN/TC 33/WG 4 agrees to request a NWI for revision of EN 1303.

ACTION 4/2021: CEN/TC 33/WG 4 request TG 4 to submit a revised draft for the TS MKS Data security to the WG 4 secretariat for review and further process to the CEN/TC 33 secretariat.

TG 5: Hinges Convenor: Joanne Brain

Doc: [Report from CEN/TC 33/WG 4 /TG 5/N1145](#)

TG 5 is working on EN 1935, there has been no activity for some time but now the need for updating the standard is now urgent. The draft for updating still follow the routes for hEN.

Inge Lidén will contact the HAS consultant, G. Bedotti for guides of the draft of upgraded hEN 1935 and still be hEN.

Inge Lidén will join the next TG 5 meeting scheduled for 25 March.

TG 6: Door closing devices Convenor: Torsten Vogel

Doc: [Report from CEN/TC 33/WG 4/TG 6/N1151](#)

TG has voted for keeping the revision projects of harmonised EN 1154, EN 1155, EN 1158 on hold, The work for PWI for EN 15887 will start with a meeting in April.

TG 7: Lever and knob handles Convenor: Stephan Schmidt

Doc: [Report from CEN/TC 33/WG 4/TG 7/N1139](#)

There is currently no activity in TG 7. The systematic review for EN 1906:2012 will start on 5 December 2022.

TG 8: Door and window bolts Convenor: Joanne Brain

Doc: [Report from CEN/TC 33/WG 4/TG 8/N1146](#)

The next five-year systematic review will begin on 15 June 2022.

Encourage expert to volunteer for participation in the TG Door and window bolts in the coming revision 2022.

TG 9: Horizontal standards Convenor: Jürgen Meinhardt

Doc: [Report from CEN/TC 33/WG 4 /TG 9/N1147](#)

A web meeting is planned for 13 April. The PWI for revision of EN 16035 is to be activated before 22 April.

TG 10: Exit devices Convenor: Pierre Vilain

Doc: [Report from CEN/TC 33/WG 4/TG 10/N1140](#)

TG10 Members recently voted for keeping the revision projects of EN1125 and EN179 on hold, and start again when the CPR is revised or when the situation is unblocked within the EC. The main

reason is to avoid confusion in the market. Almost all the Panic Exit Devices and the Emergency Locks are CE marked today, a voluntary standard could be used only in a few cases. For Companies possibilities to communicate about new features (Type C, outside rim, ...) it is able to use the Pr draft versions that was available during the 2nd enquiry passed in 2016.

TG 11: Sliding and sliding and folding door gear Convenor: Denis Schnobelen

Doc: [Report from CEN/TC 33/WG 4/TG 11/N1141](#)

ACTION 5/2021: CEN/TC 33/WG 4 agrees to proceed to Formal vote for amendment to prEN 1527.

TG 13: Window hardware Convenor: Johannes Trampert

Doc: [Report from CEN/TC 33/WG 4/TG 13/N1142](#)

All Work Items are on track, drafts will soon be provided in order to start the Formal Vote procedure.

TG 15: Padlocks Convenor: Jouni Tirkkonen

Doc: [Report from CEN/TC 33/WG 4/TG 15/N1143](#)

The prEN 12320 has been on CEN Enquiry and was closed recently with a positive result. When looking at the received comments the TG feels that some of them are more editorial (even though stated as Technical comments). Jouni asked if they can be re-classified and Bengt will look at them together with Jouni and discuss the way forward. In that case, would it be possible to skip the Formal Vote?

TG 16: Hardware for side hung and outward opening shutters Convenor: Paul Prunty

Doc: [Report from CEN/TC 33/WG 4/TG 16/N1148](#)

The report from TG 16 was noted.

7. CEN/TC 33 issues

7.1 TC 33 Convenors meeting report

Doc: [Presentation from CEN/TC 33 made by Frederic Ducloyer/N1152](#)

Frédéric Ducloyer made a presentation on the status of the situation with CPR revision etc. The situation is uncertain, and it is difficult to have a clear view of the timeframe.

There are different parts and time frames:

- Long term: CPR Revision
- Mid-term: CPR Acquis Management
- Short term: Pilot on two blocked hEN (EN 1740 & EN 16977)-

CPR Revision:

- Role of CEN in the future HTS (Harmonized Technical Specifications)
- Environmental issues
- BWR (Basic Work Requirement) (Annex 1 of the CPR)

Governance CPR Acquis plan

- A steering group is formed with the European Commission, Member States, and a couple of other stakeholders. Different sub-groups will work on different topics, the working groups will consist of experts nominated from the NSB, industry and other stakeholders.
- 26 members have been nominated by Member States to participate in the working group on M/101.

7.2 CEN/TC 33/WG 1 Windows and doors

Pierre Vilain reported on the current activities within WG 1, the next meeting is planned for March 11th. All projects have been frozen from the autumn until now due to the uncertainty.

7.3 CEN/TC 33/WG 7 Burglary resistance

Håkan Hedlund reported on the current activities of WG 7, they will have an informal meeting March 12th to go through the comments received during the Formal Vote for EN 1627-1630 and the secretariats observations.

Question was asked regarding information to some countries that use EN 1627 as a tool to certify and classify lock cylinders for burglary resistance. It is important to inform the market that the draft revised standard include text to clarify that this is not allowed.

7.4 Supporting Group to WG 7 on Smart locks

Håkan Hedlund will invite the members of the group to a first meeting shortly.

8. Liaisons

8.1 CEN/TC 127 Fire safety in buildings

Doc: [CEN/TC 127 Liaison report to WG 4 March 2021/N1149](#)

Report and update on recent and planned activities from the Liaison Officer, Pierre Vilain.

8.2 ISO/TC 162/WG 4 Windows and doors

Report and update on recent and planned from the WG 4 Secretary. The Committee Manager for ISO/TC 162 had not reported any current activities.

8.3 ARGE

Doc: [ARGE Work Programme presented by Hans Weissenböck/N 1153](#)

Hans Weissenböck gave a presentation on the work performed within ARGE (The European Federation of Association of Building Hardware Manufacturers).

ARGE project Cylinder MKS will continue with information and market activities as a complement to WG 4/TG 4 Technical Specifications for Cylinder MKS.

8.4 ARGE WG Standardisation

Doc: [ARGE WG Standardisation/N1154](#)

Pierre Vilain gave a presentation on the status and ongoing work of WG Standardisation of ARGE.

9. Date and place of the next meetings

ACTION 6/2021: CEN/TC 33/WG 4 agrees to hold its next meeting on 8 September 2021 in Stockholm, if possible, considering the impacts of Covid 19. The ARGE Conference is planned to be held September 9-10, also in Stockholm.

10. Action on harmonized European standards

10.1 CPR

Doc: [Presentation ARGE CPR/N1155](#)

Stephan Schmidt gave a supporting presentation on CPR.

10.2 M101 rev / Draft Standardisation Request

Presentation by Frédéric Ducloyer was given in relation to agenda item 7.

10.3 Future work of TC 33

Presentation by Frédéric Ducloyer was given in relation to agenda item 7.

11. Approval of proposals and actions

All actions were unanimously approved by CEN/TC 33/Working Group 4.

12. End of meeting

Inge Lidén ended the meeting and thanked all participants for their contributions.
